

If You Want My Money or Support Be Warned

I will not contribute to or support any political organization, party, or candidate who does not support the **FairTax**.

- The **FairTax** will stimulate the economy with private funding, and without costing the government a trillion dollars. It will bring jobs and industry back to the U.S. and makes the U.S. a tax haven.
- It untaxes the poor but does not burden only half of society with the cost of government. The prebate eliminates the need for exemptions because it untaxes the necessities of life.
- It provides true support for Social Security and Medicare without a bogus "trust fund."
- It requires the repeal of the 16th amendment and defunds the IRS. The founding fathers warned against a direct/income tax and the Constitution had to be amended to allow for the income tax.

If you are unwilling, unable or simply do not have the desire to accomplish these goals along with all the other aspects of the **FairTax**, I have no use for you.

I want the **FairTax**! I want the **FairTax AS WRITTEN!**
I want the  **NOW!**
